

# 6th Joint Meeting of the Signal Transduction Society (STS)

in association with study groups  
of the German Societies  
for Immunology (DGfI),  
for Cell Biology (DGZ),  
and for Biochemistry and  
Molecular Biology (GBM)

Organizers:

Ralf Hass, Hannover  
Karlheinz Friedrich, Jena  
Ottmar Janssen, Kiel  
Frank Entschladen, Witten  
Kerstin Lang, Witten

## SIGNAL TRANSDUCTION:

## Receptors, Mediators and Genes

Hilton Hotel, Weimar  
November 7- 9, 2002

### Topics:

Oxidative Stress, Cell Cycle and Control of Aging  
Interaction Domains and Signaling Complexes  
Cell Motility, Adhesion and the Cytoskeleton  
Signal Transduction through G-Proteins  
Cytokine and Growth Factor Signaling  
Cell Death and Differentiation  
Disease and Therapy  
Bench to Business

Meeting Information:
