

7th Joint Meeting of the Signal Transduction Society (STS)

in association with study groups
of the German Societies for Immunology (DGfl),
Cell Biology (DGZ), Biochemistry and Molecular
Biology (GBM), and the Forschungszentrum
Immunologie (FZI) Sachsen-Anhalt

Organizers:
Karlheinz Friedrich, Jena
Ottmar Janssen, Kiel
Ralf Hass, Hannover
Frank Entschladen, Witten

SIGNAL TRANSDUCTION:

Receptors, Mediators and Genes

Hilton Hotel, Weimar

November 6 - 8, 2003

<http://www.sigtrans.de>

Keynote Speakers

Stephan Feller, Oxford, UK
Bernd Groner, Frankfurt, Germany
Václav Hořejší, Prague, Czech Republic
Marcel Leist, Valby, Denmark
Marc Mareel, Gent, Belgium
Erich Nigg, München, Germany
Sandra Pellegrini, Paris, France
Alfred Wittinghofer, Dortmund, Germany
Thomas von Zglinicki, Newcastle, UK

Speakers of the STS/FZI Symposium 'Signaling within the Immune System'

Doreen A. Cantrell, London/Dundee, UK
Marc Daëron, Paris, France
Gary A. Koretzky, Philadelphia, USA
Michael Reth, Freiburg, Germany
Juan Rivera, Bethesda, USA
Takeshi Tsubata, Tokyo, Japan

Topics

Bench to Business
Disease and Therapy
Genomics and Proteomics
Oxidative Stress and Aging
Cell Death and Differentiation
Membranes and Signal Transduction
Cytokine and Growth Factor Signaling
Signal Transduction through G-Proteins
Adhesion, Cell Motility and the Cytoskeleton
Interaction Domains and Signaling Complexes
Chromatin Modifications and Cell Cycle Control
