

# 9th Joint Meeting of the Signal Transduction Society (STS)

in association with study groups of the German Society for Cell Biology (DGZ), the German Society for Immunology (DGfI) and the Society for Biochemistry and Molecular Biology (GBM)

Organizers:  
Ralf Hass, Hannover  
Ottmar Janssen, Kiel  
Karlheinz Friedrich, Jena  
Frank Entschladen, Witten

## SIGNAL TRANSDUCTION:

## Receptors, Mediators and Genes

Hilton Hotel, Weimar

November 10 - 12, 2005

<http://www.sigtrans.de>

Abstract deadline: September 15

### Keynote Speakers

Stefan Bauer, Munich, Germany  
Alexander Bürkle, Konstanz, Germany  
Peter Friedl, Würzburg, Germany  
Markus Hoth, Homburg, Germany  
Peter Krammer, Heidelberg, Germany  
Tomokiro Kurosaki, Yokohama, Japan  
John Monroe, Philadelphia, USA  
Stefan Rose-John, Kiel, Germany  
Andre Veillette, Montreal, Canada  
Salvatore Valitutti, Toulouse, France

### Topics

Signaling in Immune Cells  
Differentiation and Cell Death  
Signalling Induced by Pathogens  
Cell Motility and the Cytoskeleton  
Chemokines, Cytokines and their Receptors  
Small Molecules as Signaling Modifiers - Toxins and Ions  
Chromatin Modifications, Transcription, Cell Cycle Control and Aging
